

Payroll Protection Plus

What would happen if you couldn't work for a month or more?

Vital was founded with one clear purpose: to protect the people who protect others. We saw a gap in how traditional insurance addressed the needs of doctors – and we set out to close it with precision, empathy, and deep industry insight.

We understand that a medical career is more than just a job; it's a calling. It's a lifetime investment in skill, reputation, and patient trust. That's why we offer specialized coverage specifically tailored to the needs of medical practitioners, designed with their earning potential, occupation-specific risks, and long-term financial security in mind.

Vital offers a smooth process from application to claim, with dependable coverage designed for solo practitioners and small practices.

Discover A World Of Financial Safety

Doctors face a unique set of risks. Compared to other professionals, you are almost twice as likely to have a medical event that disrupts your career because of the physical demands of your job. A sudden disruption can pose serious operational and financial risks for small practices.

Introducing Payroll Protection Plus

Disability insurance is frequently inadequate; it doesn't cover the costs of operating your practice, has lengthy waiting periods, and only pays a portion of your income. Payroll Protection Plus bridges that gap and keeps your practice steady, allowing you to focus on your practice.

Secure your practice with Vital PPP — comprehensive coverage for physicians, dentists, and veterinarians, which includes protection for medical events, travel disruptions, and medical board actions.

Coverage in the event of:

Medical Event

Travel Disruption

Medical Board Disciplinary Action
